

GLOBAL CONFERENCE ON HYDROGEN AND RENEWABLE ENERGY for SUSTAINABLE TRANSPORTATION AND INDUSTRIAL APPLICATIONS

6th - 7th March, 2026

Agenda for H2RESA 2026

Plenary Sessions: Day 1 (6th March 2026)

Inaugural Function : 9.30 AM to 10.25 AM

Tea Break : 10.25 AM to 10.45 AM

Session No	Time	Topics	Theme
Key Note Talk 1	10.45 AM to 11.30 AM	Indian Energy & Decarbonization Goals, Key Challenges, Public-Private Funding/Incentives	India's Role in Global Hydrogen Science
Key Note Talk 2	11.30 AM to 12.15 PM	Cost-effective hydrogen generation technologies – should India focus only on Green Hydrogen?	Hydrogen Production Technologies
Key Note Talk 3	12.15 PM to 1.00 PM	Opportunities in Solar to Green Hydrogen	Renewable Energy and Storage Systems
Lunch	1.00 PM to 2.00 PM		
Key Note Talk 4	2.00 PM to 2.45 PM	Hydrogen Storage Technologies – Innovations with the best high volume commercial potential	Hydrogen Storage Systems
Key Note Talk 5	02.45 PM to 3.30 PM	Battery Energy Storage Systems for MW scale applications	Industrial and Other Applications
Tea Break	03.30 PM to 03.45 PM		
Key Note Talk 6	3.45 PM to 4.30 PM	Hydrogen Thermal Energy-Foundry Applications	Renewable Energy and Storage Systems
Key Note Talk 7	4.30 PM to 5.15 PM	Hydrogen distribution and infrastructure for the Indian Market – Viability and Scope	India's Role in Global Hydrogen Science
Key Note Talk 8	5.15 PM to 6.00 PM	Circular economy for Critical Minerals – Battery recycling?	Renewable Energy and Storage Systems

Plenary Sessions: Day 2 (7th March 2026)

Session No	Time	Topics	Theme
Key Note talk 9	9.30 AM to 10.15 AM	Techno-Economic Assessment & Life Cycle Analysis for Hydrogen as a Fuel for Select Sectors	Industrial and Other Applications
Key Note talk 10	10.15 AM to 11.00 AM	Smart Energy Systems - encompassing intelligent grid technologies, energy management systems, digital energy solutions, and IoT applications in energy Optimization	Industrial and Other Applications
Tea Break	11.00 AM to 11.15 AM		
Key Note talk 11	11.15 AM to 12.00 PM	Green transportation – Is hydrogen a viable solution?	Sustainable Transport Systems – Road Vehicles & Off Road Vehicles, ships & aircrafts
Key Note talk 12	12.00 PM to 01.00 PM	Production Process of Membrane for Hydrogen Generation	Hydrogen Production Technologies
Lunch	1.00 PM to 2.00 PM		

Conference Paper Presentation: In six parallel sessions from 10.00 AM onwards on 7th March 2026
